

## The Dual Plus Range

### Revolutionary intelligent mattress replacement system that rethinks the way to optimise comfort.

Brought to you by the inventive research and design team at Carilex, comes the replacement system with instinctive input design to create maximum comfort. Taking care of patients can be stressful, that is why it is crucial to have simple input options. DualPlus Power Unit does not need to input patient's weight. DualPlus offers multiple comfort levels that delivers optimal internal pressure according to each patient's sensation; as well as both dynamic and static modes to meet individual patient's needs.

Electronic pressure sensors and sophisticated microprocessors run through intricate algorithms in order to responds to patient movements on mattress and adjusting internal pressure appropriately, with no extra input needed.

**Bridging cells allow for the provision of zero pressure zones.**

DUAL PLUS	
Risk	High to Very High
SWL	250kg
Cable Management	✓
CPR	✓
Cells	20 x 8" cells, Exchangeable bridging cells, Compressed Foam Base
Low Pressure and Power Failure Alarms	✓
Dartex 4 Way Stretch Fabric	✓
Cycle Times	5, 10 and 15 minutes
Mattress Sizes	Single – 90cm x 200cm King Single – 105cm x 200cm
Cost	\$\$\$\$
